Office Action Summary	Application No. 10/537,398	Applicant(s) KUZUU, MIKI	
	Examiner Mark Spisich	Art Unit 3727	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings are objected to because figures 1(A) and 1(B) should be each separately labeled as such (in other words, delete "FIG. 1" and change (A) and (B) to FIG. 1(A) and FIG. 1(B), respectively) . Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Wachtel (USP 4,619,012). The patent to Wachtel discloses a brush comprising a core (3) as well as bristles (7) in the shape of a ring and straight bristles (11). With regard to the mere mention of “for application of mascara or the like”, this pertains only to the intended use of the brush and does not structurally define over the structure of the prior art (this is also true with at least some of the rejections below as well).

5. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 2000-325139). ‘139 discloses an applicator brush comprising a core (3) as well as loop or ring-shaped bristles (4b) and straight bristles (4a).

6. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Dolan, Jr. (USP 4,744,377). The patent to Dolan discloses a brush applicator comprising a core (12) as well as a plurality of ring-shaped bristles (11) (see figures 4 and 5).

7. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Rissler (USP 2,689,968). The patent to Rissler discloses a brush with a core (11) as well as a plurality of bristles (14) each comprising of rings (15,16,17).

8. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Meunier (USP 2,599,191). The patent to Meunier discloses a brush with a core (8) as

Art Unit: 3727

well as a plurality of bristles (9) which are loop or ring-shaped. See figure 3 which shows one loop-shaped bristle (13) within the other (10).

Claim Rejections - 35 USC § 103

9. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

10. Claims 3 and 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Meunier (USP 2,599,191) in view of Edwards et al (USP 6,260,229). With regard to the further inclusion of straight bristles, the patent to Edwards disclose a brush with combines loop-shaped bristles (118,120) and straight bristles (106,108). It would have been obvious to one of ordinary skill to have further provided straight bristles to the brush of Meunier to provide a more diverse brushing effect.

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited patents are pertinent to brushes with ring or loop-shaped bristles.
